

Mustang Powder 2011/12 Wine List

We take wine very seriously at Mustang, and it is an important part of the dining experience. The wine industry in British Columbia has evolved to a level where our products can now compare with high quality wines from around the world. Consequently the wine list at Mustang Powder features exclusively BC wines. This not only supports our local wineries, but also gives our guests a great opportunity to try many of the Okanagan Valley's best wines.

Each autumn we have exhaustive wine tasting sessions with local wine reps – striving to establish the wine-list. Our list contains over 50 different wines. For Reds the Merlot is probably the variety which likes the Okanagan valley the most, with whites it is the Pinot Gris. Do however sample the Bordeaux blends – some are truly spectacular.

During the season we have regular wine pairings with supper and also bring in wine makers and sommeliers to do tastings and talks on various subjects.
