Mar 30th - Apr 5th	-4.0°	-1.2°	33.3	378.6

AVERAGE TOTAL SNOWFALL

950.8 cm

Dec 1 – Apr 5, averaged across 21 seasons (2005–2026)

SEASON SHAPE AT A GLANCE

Base reflects the average total snowpack depth at the lodge (1,740m) for that week — how much snow is on the ground, not how much fell. **Snow** is the average total new snowfall recorded during that 7-day window.

Figures are long-term averages and reflect typical conditions, not guarantees for any specific week or season. Individual seasons vary.
